

Welcome to the So Cal KM Forum

- 10:00-10:20 Arrival
- 10:20-10:30 Welcome, Brief Comments, Introductions
- 10:30-11:00 Hrioko Wilensky (Boeing, UCI)
Studying Communities and Knowledge Management
- 11:00-11:30 Prof. Gloria Mark (UCI)
The Challenges of Multitasking: Working Faster, Better, Cheaper?
- 11:30-12:00 Prof. Russ Abbott (Cal State LA)
Supporting Online Collaboration
- 12:00-01:00 Pizza Lunch and networking
- 01:00-02:00 Break Out Groups & Wrap Up

Welcome to the Department of
Informatics, University of California,
Irvine, Donald Bren School of
Information and Computer Sciences
www.ics.uci.edu

and to the Institute for Software
Research
www.isr.uci.edu

UNIVERSITY *of* CALIFORNIA

IRVINE

ISR Institute for Software Research
UNIVERSITY OF CALIFORNIA, IRVINE

department of informatics
bren:school
information and computer sciences

Thanks ...

- Sabina Chung for Arrangements
- Institute for Software Research for Lunch and Coffee
- Department of Informatics (and Yours Truly) for Parking

ISR is dedicated to...

- **Fostering basic and applied research** in software and information technologies
- **Transitioning technologies** to widespread and practical application
- **Educating** the next generation of software researchers and practitioners
- **Providing public services**

- Research and Teaching
- Achieving a balance between ...
 - Technology
 - Design, Architecture, Testing, Evaluation, Usability, ...
 - People
 - Individual, Group, Team, Organization, Society

Degrees Offered

- Bachelors, Masters, and Doctorate Degrees
 - BS in Informatics
 - BS in Business Information Management
 - BS in Information and Computer Science
 - MS / PhD in Information and Computer Science
 - Software, Ubiquitous Computing, Information and Collaboration Technology, and General Tracks
- See also
 - Department of Computer Science
 - Department of Statistics
 - Program in Arts, Computation, Engineering

Some Faculty Areas of Expertise

- Software Engineering
 - Software Architecture, Web Architecture, Design, Specification Based Testing, Software Tools, Software Comprehension, Agile Programming
- Human Computer Interaction
 - Knowledge Based Systems, Activity Theory, Interaction Design, End User Modeling
- Computer Supported Cooperative Work
 - Distance Collaboration, Awareness, Knowledge Management
- Ubiquitous Computing
 - Location Based Systems, Medical Informatics
- Virtual Worlds
 - Prototyping in Second Life, Social Behavior in World of Warcraft
- Privacy and Usable Security
 - End User Preferences, User Interfaces

Growing and Diverse Faculty

Acclaimed human-computer interaction scholars to join UCI faculty

Gary and Judy Olson are named Bren Professors of Information and Computer Sciences

Irvine, Calif., April 2, 2008

Gary and Judy Olson, pioneers in the fields of human-computer interaction and computer-supported cooperative work, will join the UC Irvine faculty as Donald Bren Professors of Information and Computer Sciences, effective July 1.

The couple comes to UCI from the University of Michigan. Gary Olson is the Paul M. Fitts Collegiate Professor of Human-Computer Interaction in the School of Information and former associate dean for research. Judy Olson is the Richard W. Pew Collegiate Professor in Human Computer Interaction and associate dean for academic affairs in the School of Information. They also hold joint appointments in the Department of Psychology, and Judy Olson holds an additional joint appointment in the Ross School of Business.

In 1992, the Olsons founded the Collaboratory for Research on Electronic Work at University of Michigan. The CREW studies how new technologies such as e-mail and nomadic computing change the way people work.

Both professors are members of the prestigious CHI Academy, and they received CHI Lifetime Achievement Awards in 2006 from the Association for Computing Machinery's Computer-
