SFSKIDS: Portal for 8-13 year old students

SAN FRANCISCO
SYMPHONY

SFSKIDS **FUN & GAMES
WITH MUSIC**

Discover Listen Play Perform Conduct Compose

SE Challenges in *SFSKIDS*

- Non-Functional Requirements
- Playful user interfaces
- Gesture control
- Real-time DSP in Web browser
- Persistence without storage
- Design for extensibility

Accommodating Preponderance of Non-Functional Requirements

- SFSKIDS must be *fun* for 8-13 year old students
- SFSKIDS must operate on older or slower personal computers
- SFSKIDS should be aligned with *National Music Education Standards*

Align with National Music Education Standards

National Association
for Music Education

Playful user interfaces

Discover Music

Under the Sea of Knowledge.

Gesture control

Perform Music

In the Instrument Garden

Real-time DSP in Web browser

Conduct Music

At the Symphony Hall

Persistence without storage

SFS required minimal service support:
thus no external database or content
management servers

- Users can export (via email) *encoded URIs* that embed music compositions or music animations
- Other users can receive and select encoded URIs, resume session or modify created content

Anticipated extensions

SFSKIDS designed for extension, modding, or customization of:

- Recorded music catalog
- Music history
- Music genres (Opera, Jazz, World,...)
- Musical instruments
- User created music+imagery
- External content management
- Localization

Conclusions

- *Fun*: a challenging requirement!
- Interdependence of SE and HCI
 - playful user interfaces
 - gesture control
 - playful game (user) experience
- SE helps to develop application as a reusable, extensible platform!
