

28th International Conference on Software Engineering

20-28 May 2006

<http://www.icse-conferences.org/2006/>

Call for Submissions: Emerging Results

General Chair

Leon J. Osterweil, *U. of Massachusetts, USA*

Emerging Results Chair

Betty Cheng, *Michigan State University, USA*
Beijun Shen, *ECUST, Shanghai, China*

Program Committee

Betty Cheng (Co-Chair), *Michigan State, USA*
Beijun Shen (Co-Chair), *ECUST, China*
Mikio Aoyama, *Nanzan University, Japan*
Marsha Chechik, *University of Toronto, Canada*
Rogerio de Lemos, *U. Kent at Canterbury, UK*
Carlo Ghezzi, *Politecnico di Milano, Italy*
Hausi Muller, *University of Victoria, Canada*
Gregg Rothermel, *U. of Nebraska-Lincoln, USA*
Yannis Smaragdakis, *Georgia Tech., USA*
Gene Spafford, *Purdue University, USA*
Kevin Sullivan, *University of Virginia, USA*
Eric Wohlstadter, *U. British Columbia, Canada*
Li Zhang, *Beijing U. of Aero. & Astro., China*
Andrea Zisman, *City University, London, UK*
Didar Zowghi, *Univ. of Tech. Sydney, Australia*

The session is an informal and highly interactive environment that gives ICSE attendees the opportunity to engage with one another in discussions about ongoing work and critical issues in key areas. Researchers and practitioners can describe their work-in-progress. All ICSE participants can obtain rapid, low overhead introductions to interesting work and technologies in object-oriented software engineering. The participants can also provide input and feedback directly to the authors. This feedback can be used by authors to help them shape future full ICSE papers.

Scope. ICSE 2006 Emerging Results Session cover the same interest areas as the Technical Papers, Experience Reports, Workshops, Panels program. Submissions should cover work that has a solid technical basis, but perhaps has not been fully validated.

Review and Evaluation Criteria. Each submission will be reviewed by at least two members of the Emerging Results committee.

The Emerging Results committee will review each submission using the standard ICSE criteria: originality, importance and generality of contribution, soundness of rationale, quality of written and graphic presentation, and appropriate consideration of relevant literature.

Submission Structure. Emerging Results submissions should conform to the ICSE 2006 Format and Submission Guidelines.

Submissions should consist of a single four page document with the following three parts:

- overview of problem and motivation (include related work),
- brief description of preliminary results, and
- discussion of impact of results and tentative future investigations.

Important Dates

Submissions Due	30 October 2005
Notification of Acceptance	20 December 2005
Camera-ready Copy Due	24 February 2006

Acceptance. Accepted Emerging Results submissions will be allocated four pages in the proceedings which must conform to the ICSE 2006 Format and Submission Guidelines. In addition to publishing their short papers in the conference proceedings, authors will present their work in the form of a poster during dedicated time slots throughout the conference. Equipment

We will not provide any computing equipment such as computers, disk drives, or monitors. We will, however, provide poster board, easel, and a table for handouts and/or early drafts of technical reports.
